Product Description

The Go-Go Elite Traveller 3- wheel offers easy disassembly, a lightweight frame and a super tight 33 inch turning radius! Versatile and easy to handle, the heaviest piece weighs only 28 lbs for loading in the car. The Elite Traveller 3- wheel has straight handlebars, not the delta style tiller, and features an additional charging port located up on the tiller for easy access. Interchangeable blue or red color panels and 12 AH batteries are standard. The Elite Traveller features anti-tips on the back for extra security and has a weight capacity of 300 lbs. .
